Subject: Microsoft Settlement

Please proceed carefully with regard to the Microsoft settlement. The past has shown that Microsoft will not follow guidelines that have no enforcement, and will also exploit any limitations or loopholes that are present. Please ensure that competition is restored to the computer industry. Consumers need to be able to choose the best product for their needs, not the only product available.

Our country has been based upon fair play and equal opportunity. Let's not give up those values now.

Thank you for your time,

George Wagner
